### What you can do:

You are granted the right to play the music you download from this site ([www.onhold2go.co.uk](http://www.onhold2go.co.uk)) on your music on hold player indefinitely, regardless of how many incoming lines you have. You will not be expected to pay us or PRS/PPL or any other Performing Rights Organization any further fees for the usage of our music.

This license only extends to the usage of music on hold (if you require further usage please contact us).

Each license is per business. If you have other businesses that trade under a different business name you will need to purchase a new license per business. If you have satellite sites that are trading under exact same name and use the same central pbx you only need one license, if they use a separate system a new license will be needed.

The territory is worldwide.

### What you cannot do:

You cannot resell or give away the music (e.g. You cannot simply give this music away with a telephone system) or use it for other commercial applications such as video or website. Please contact us if you wish to license the music for other purposes.

### Copyright ownership

The copyright owners of this music are IB Audio and we own all the rights to the music, this is important to remember in case you need to resolve any problems with PRS. We are of course on hand to help with any disputes to your rights to play the music.

Please visit our main stock music site for more music or to gain a better understanding of who we are and what we do.

### How are we PRS/PPL free?

As we are not members of the PRS, PPL or any other performing rights organisation they cannot issue licenses on our behalf as they do not represent us.
